

....

## Poultry and Fish

- Write a letter to the City asking for permission to raise chickens, build chicken coops, obtain chickens, share eggs with others.
- Get a fishing pole and tackle, learn how to fish.

## Energy

- Learn how to conserve energy in your home, try a day without an energy use, identify what you can change in your home, determine what you could do without, and what you would do during a long energy disruption, think about how you would keep warm, eat, read, or do other activities.
- Do an energy audit, make suggested changes, including insulating your home, changing light bulbs, converting to dual pane windows, adding curtains.
- Contact a solar expert and determine whether solar would be right for your home
- Install a clothesline.
- Get a barbeque or camping stove and build an outside oven.
- Install a clean burning stove.
