

Home Composting Demonstrations

Saturday, May 17th at 10a.m. and 11a.m.

**Monterey Regional Waste Management Staff will
Demonstrate and Answer your Questions
About the Basics of Home Composting
At the Cooper-Molera Adobe Historic Gardens
located at 525 Polk Street in Monterey (Next to the New Trader
Joes)**

LEARN How To:

- Compost yard waste & kitchen waste using both commercially made compost bins and handmade designs.
- Start your own Vermicomposting bin and let the worms do the work for you. Vermicomposting is perfect for those with a small or no yard, who generate no yard waste, but wish to recycle kitchen (food) waste.

**By composting your yard waste and food waste
you can reduce your garbage by 33%, and at the same time produce
nutrient rich soil amendment for your plants and garden.**
